

GEOSCANNERS

COMPLETE SURVEY SOLUTIONS

Complete Survey Solutions

We at Geoscanners want you to get the most out of your survey in the shortest amount of time. That is why we provide complete scalable survey systems for a great amount of different surveys, intuitive software, training and support.

Adjusted to your needs

With the largest selection of antennas on the market and a high level of scalability, you can be certain that you will find a system that satisfies your distinct survey specifications. The scalability gives you the freedom to easily switch from one system to another in the future.

TRAINING & SURVEY SERVICES

We want our customers to get the most out of their new equipment and therefore offer up to 2 days free* of charge training with all complete systems. No matter if the training is held in Sweden or at your location, our engineers will share their knowledge and make sure that you know all there is to know about how to get the best results with your new Geoscanners system.

Don't have time to learn GPR? You don't need to be a GPR operator or an engineer to get the many benefits from GPR technology. Let us do the work for you and provide you with the data and/or analysis of the area that you would like to know more about!

*2 days free of charge GPR training (travel and accommodations not included) at the Geoscanners facility in Sweden.

**3 YEAR
WARRANTY**

We believe in our products, that is why we have the longest warranty in the GPR field.

SWEDISH QUALITY

Geoscanners is privately held and has its headquarters in Boden, Northern Sweden. The severe climate and the diversity of testing conditions makes this place unique to develop and manufacture the absolute best field equipment for GPR applications.

Geoscanners keeps a constant rate of upgrades, enhancement and perfection for the entire line of products. Continuous investments in new technologies, testing and manufacturing processes, permits us to offer cutting-edge products that satisfy the Swedish high quality standards.
